

NEWS RELEASE NR.001/09

NEW GAMA SOLVENT FLUSH GUN

Dear Distributor:

We are pleased to announce officially the launch of the **new GAMA SOLVENT FLUSH Gun**

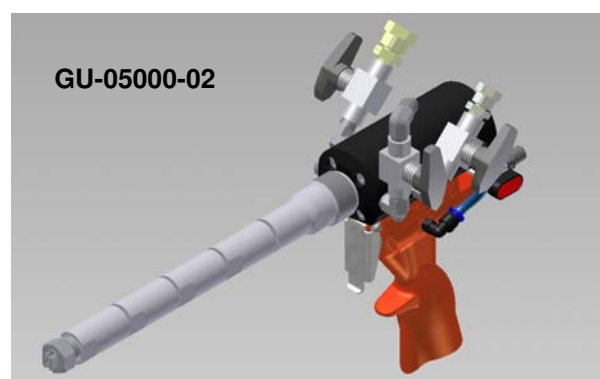

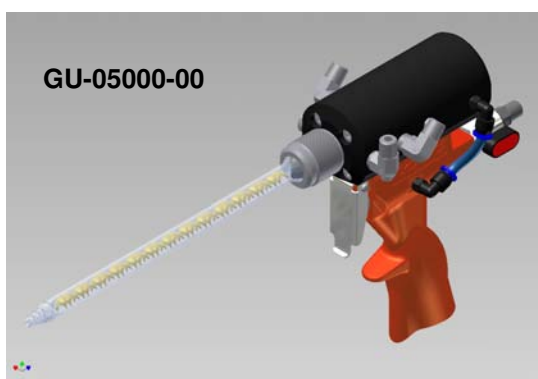

Main Features:

- ✓ Designed to apply two components of low and high viscosity (polyurethanes, epoxies and sealants)
- ✓ Suitable for low pressure injection and high pressure spraying
- ✓ External mixture with low pressure static mixer
- ✓ External mixture with high pressure static mixer
- ✓ Static mixer length: 50-500mm
- ✓ Solvent Cleaning
- ✓ TIP mechanical atomization
- ✓ External greasing of the shut-off valves
- ✓ 5:1/1:5 mixing ratio depending on the ratio of the proportioning pumps
- ✓ Product calibrator included
- ✓ Approximated gross weight: 1 Kg

Two Gun Options:

P/N GU-05000-00: Standard Solvent Flush Gun for low pressure injection

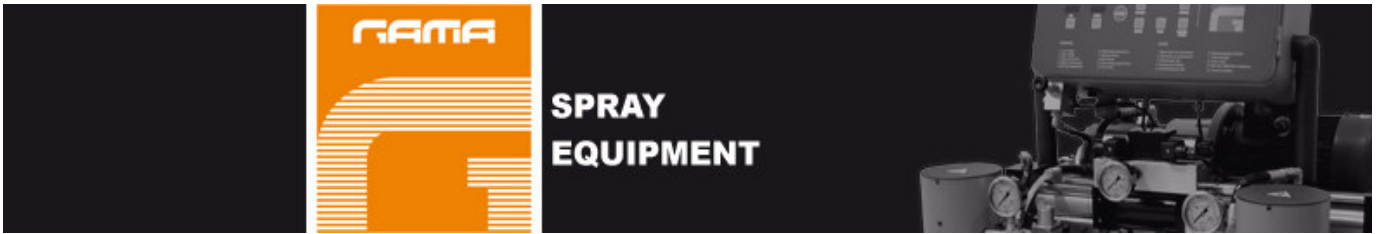

P/N GU-05000-02: High Pressure & Low Pressure Solvent Flush Gun

Please find attached EXPLODED VIEWS for both options.

NEWS RELEASE NR.001/09

Technical Specifications:

Maximum working pressure with plastic mixer:	10 Kgf/cm ² / 142 psi
Maximum working pressure with metallic mixer:	250 Kgf/cm ² / 3555 psi
Required air supply:	6-8 Kgf/cm ² / 85-114 psi
Maximum output @ 1:1 ratio:	18 Kg/min / 40 lb/min
Minimum output @ 1:1 ratio:	1 Kg/min / 2.2 lb/min
Approximate air consumption @ 6 bar (50 cycles/min):	10 liters/min

Please find hereunder part numbers and prices.

P/N **GU-05000-00**: Standard Solvent Flush Gun PKG

Includes:

- Solvent Flush Gun
- Product Calibrator
- Tool Kit & Manuals
- Plastic LP Static Mixers Bag (50 units)

P/N **GU-05000-02**: HP & LP Solvent Flush Gun PKG

Includes:

- Solvent Flush Gun
- Product Calibrator
- Tool Kit & Manuals
- High Pressure Static Mixer 50mm
- Spray TITAN Tip (different sizes available)
- Plastic Low Pressure Static Mixers Bag (50 units)
